Dream House

Your favorite architect just completed the perfect house...for someone else. Perk up, compare it to a market listing.

Peter Cadoux

ON HIS PROJECT

"Blurring the line between the exterior and the interior environment has always been appealing for many homeowners and is now possible with new building technologies...This one room serves many functions: a pool house within a home, a family room with a fireplace and a television visible while swimming, a veranda to provide protection from the sun, a screen porch, a fully functioning sunroom during the winter. It is, simply put, the best of all rooms."

IF YOU LIKE CADOUX'S ROOM WITH A VIEW, COMPARE IT WITH THIS LISTING:

Realtor Julie Vanderblue suggests 3 Canfield Crossing, East Norwalk, \$3,850,000. "This waterfront retreat opens from a spectacular family room and gourmet eat-in kitchen," she says. It includes a stone patio, built-in hot tub, outdoor fireplace and infinity Gunite pool.
